- **Descriptive analysis:**

- The major sales done from the year 2023 to 2025. Nearly 20 stores, three types of stores named Flagship, Online and Outlet were spread all around region wise. Totally 2000 sales done by the 500 customers. In that 262 are female and 238 are Male Customers. The customers were separated by 4 Loyalty levels named Bronze, Gold, Platinum and Silver. The total cost of the sale from the year 2023 to 2025 is Rs. 2174394.70. The Products were categorized by 5 major things Beauty, Clothing, Electronics, Home and Sports.

- **Diagnostic Analysis:**

- From the year 2023 to 2025, the Sales fall between the range from Rs. 18.46 to Rs. 3098.24. The Average sale amount is Rs. 1087.20. The Year 2024 gave Higher Revenue Rs. 1093911.80. 8 Flagship stores, 8 Online stores and 4 Outlet stores were spread by regionally as East 6 stores, North 6 stores, South 6 stores, and West 2 stores. Total 2000 sale payments were done through COD, Credit card, and PayPal. Most of the customers Using PayPal for Payment. And the Payments Through PayPal gives Higher Revenue. Gender wise Female Customers with Platinum Level Loyalty customers are high. By total Female customers Contribution is high. Highest Contribution Platinum Loyalty Customers. 2nd Highest Contribution is from Bronze Loyalty Customers. Lowest Contribution is from Silver Loyalty Customers. Electronics Products Gives 2nd Higher

Revenue and Sold in Higher Quantity. All Products have maximum amount of stock. Higher sales done in North and South region.

- **Predictive & Prescriptive Analysis:**

- Overall Sales Revenue down from the year 2024 to 2025.
- Customer Count down from 999 to 784 from the Year 2024 to 2025.
- Most of the customers Using PayPal for Payment. And the Payments Through PayPal gives Higher Revenue. COD Gives Lower Revenue But Moderate sale payments done by COD.
- As per Category wise Home, Electronics and Clothing gives Higher revenue from top 10 Customers side. Beauty Products Gives very less Revenue from Top 10 Customers. But from Overall Customers Sports Products Gives Higher Revenue and Sold in Higher Quantity.
- We can increase the Discount % of Products in East and West Region to attract the customers.

- **Conclusion:**

In this E_Commerce Sales Data Project Data entry, import, and basic organization using tables, Data cleaning which means find/remove duplicates, handle missing/inconsistent data, correct formatting errors, and validate data were done. For calculations, summaries, and logical/text operations Excel formulas are applied. For advanced summarization Pivot Tables were used. Using formulas Descriptive statistics (mean, median, mode, standard deviation, etc.) were done. I built an interactive dashboard, and use basic Pivot Charts for Data visualization.
